

# Award winning Concrete Contractor prints A3 with Toshiba

Caiazza Constructions is a South Australian family owned business and has been operating for over 40 years in the construction industry.

Working on both commercial and residential projects, Caiazza Constructions has over 40 years of experience and expertise to assist with various construction needs. The Broadview based business is highly respected within the construction industry as they deliver superior concrete constructions.

In 2008, all directors were awarded the HIA Trade Contractor Awards for Workmanship and Skill as a 'Footing Contractor'. "Our 10 experienced staff, including directors, are not afraid to get their hands dirty. We know what we are doing and provide workmanship of the highest quality" says Claudio Rinaldi, Estimator and Administrator.

In order to further progress within the industry and build sustaining relationships with clients, Caiazza Constructions makes use of the latest technology. "We recently invested in bigger machines for concrete finishing. In addition, our office equipment is up to date and is used for communicating with our clients and service providers. A good example would be the designs that are emailed to us, if we need a hardcopy, we use our Toshiba machine" mentions Claudio Rinaldi.

"We have two machines, one small volume colour and one black and white. The smaller one is being used for A4 colour and the large one for A3 black and white print. We use A3 a lot for design print outs and the black and white copies also help us reduce costs" reflects Claudio Rinaldi. The Toshiba Multi Function Device at Caiazza Constructions also features a colour scanner which is used to electronically communicate with clients, staff and other service providers.

"Five years ago the company was in need of a new photocopier that would seamlessly integrate with all our new software, and copyworld offered us what we wanted. A great IT device but in an uncomplicated and easy to use machine" mentions Claudio Rinaldi.

"Thanks to holding stock, Copyworld quickly delivered what we were looking for", reflected Claudio Rinaldi "and in an affordable way too – the printing hardly impacts on our costs".

Many of our customers are quick to comment on this - Copyworld is proud of the simple control panels that the Toshibas offer and they often win awards for ease of use too.

"The Toshiba brand is good and we have only experienced one time that our machine needed servicing. And we were very happy with the service Copyworld provided" says Claudio Rinaldi, "Paul (Account Manager) delivers very satisfactory service as well."

Caiazza Constructions will continue to build a solid foundation for the future of South Australia. The company aims to provide better service without necessarily getting bigger, "our team is very dedicated and hands on, we prefer having a smaller team that delivers better service" mentions Claudio Rinaldi, "Copyworld will definitely be considered for our future needs as we are very happy with their service and products."
